Prevaccination Checklist for COVID-19 Vaccination

Name/DOB _____

For vaccine recipients:

The following questions will help us determine if there is any reason you should not get the COVID-19 vaccine today. **If you answer "yes" to any question, it does not necessarily mean you should not be vaccinated.** It just means additional questions may be asked. If a question is not clear, please ask your healthcare provider to explain it.

	Yes	No	Don't know
1. How old are you? _____			
2. Are you feeling sick today?	☐	☐	☐
3. Have you ever received a dose of COVID-19 vaccine?	☐	☐	☐
• If yes, which vaccine product(s) did you receive? ☐ Pfizer-BioNTech ☐ Moderna ☐ Janssen *(Johnson & Johnson)* ☐ Another Product _____			
• How many doses of COVID-19 vaccine have you received? _____			
• Did you bring your vaccination record card or other documentation?	☐	☐	
4. Do you have a health condition or are you undergoing treatment that makes you moderately or severely immunocompromised? *This would include, but not limited to, treatment for cancer, HIV, receipt of organ transplant, immunosuppressive therapy or high-dose corticosteroids, CAR-T-cell therapy, hematopoietic cell transplant [HCT], or moderate or severe primary immunodeficiency.*	☐	☐	☐
5. Have you received COVID-19 vaccine before or during hematopoietic cell transplant (HCT) or CAR-T-cell therapies?	☐	☐	☐
6. Have you ever had an allergic reaction to: *(This would include a severe allergic reaction [e.g., anaphylaxis] that required treatment with epinephrine or EpiPen® or that caused you to go to the hospital. It would also include an allergic reaction that caused hives, swelling, or respiratory distress, including wheezing.)*			
• A component of a COVID-19 vaccine	☐	☐	☐
• A previous dose of COVID-19 vaccine	☐	☐	☐
7. Have you ever had an allergic reaction to another vaccine *(other than COVID-19 vaccine)* or an injectable medication? *(This would include a severe allergic reaction [e.g., anaphylaxis] that required treatment with epinephrine or EpiPen® or that caused you to go to the hospital. It would also include an allergic reaction that caused hives, swelling, or respiratory distress, including wheezing.)*	☐	☐	☐

8. Check all that apply to you:

- ☐ Have a history of myocarditis or pericarditis
- ☐ Have a history of Multisystem Inflammatory Syndrome (MIS-C or MIS-A)?
- ☐ History of an immune-mediated syndrome defined by thrombosis and thrombocytopenia, such as heparin-induced thrombocytopenia (HIT)
- ☐ Have a history of thrombosis with thrombocytopenia syndrome (TTS)
- ☐ Have a history of Guillain-Barré Syndrome (GBS)
- ☐ Have a history of COVID-19 disease within the past 3 months?
