Coming Events: Fall Season

I love this time of year. This is the season that I look forward to every year. From football season to Halloween to Thanksgiving to Christmas I like it all. I can always tell when the fall season is upon us. It's a feeling in the air. A crisp breeze with leaves swirling all around you. My husband would say I was crazy for loving this time of year. We always have a considerable amount of leaf raking to do. I love that feeling of wearing a jacket and working in the yard. Fall means family to me too. It's a sense of being indoors with the warmth of the fireplace and a cup of hot cocoa. Autumn weather means watching a football game on Saturday or enjoying Christmas

decorations all week. There is always something to enjoy about the last season of the year. Here at the office there is always something to enjoy during the fall season as well. From October to December it is always someone's birthday. We take the opportunity to celebrate by eating cake and bringing a gift. Also during the fall season we take time off to be with our family. This year as always we will celebrate Thanksgiving beginning on the Wednesday before Thanksgiving. Our Christmas holiday will begin on December 21st

and we will be closed until December 28th. We are very blessed during the Christmas season to have vendors and specialist provide us with gifts of food for the staff to enjoy. In past years we have updated our staff photos for christmas cards to send to patients. As a whole we enjoy the autumn weather and the Christmas holidays in the office. We hope you enjoy yours as well. If you need anything or have any questions please let us know. We are here Monday through Thursday 8-5 just for you.

Electronic Charts: Taking Steps

In our July newsletter we mentioned our transition to electronic charts. We are excited to announce we have begun the process. Our first step was to purchase clinical software. We have scheduled a training session with our software company in order to fully understand the

program. We have also begun making electronic images of any correspondence we might have had with you or another doctor about you. It also includes any consent forms you have signed. We have also begun having patients sign consent forms electronically. The most exciting

change has been the addition of a computer in my room. I am scheduling back patients while they are in my chair. I am so excited about continuing the process and seeing what the future holds for our office.

ASB Launches T'shirt Line

*Don't Forget
Pancake Breakfast
applebee's
October 1, 2011
All proceeds go
towards the
mission trip.*

Its official Alabama Smile Builders has introduced our t'shirt line. Earlier this year we began working with MPrints, a local printing company, to put together two different shirts featuring our logo. Dr. Bishop unveiled his creations to the team in June and we were so excited. In each picture you see the front of the shirt. The back features our logo and contact information. The t'shirts are \$15.00 and all the proceeds benefit the Belize mission trip. Next time you are in let us know and we will be glad to get you one. - Beth
