USE IT OR LOSE IT

MAKE SURE YOU'RE GETTING WHAT YOU PAID FOR

It's almost 2020 and you only have 2-3 months left to use your insurance benefits! We're reminding you because we know how busy summers, back-to-school, and work can be. The clock is ticking and we want to ensure that you are getting the maximum benefits you can from your dental plan- after all, you pay for it, right? We know how tricky insurance can be, so here are some general guidelines:

- Most insurance plans run Jan.- Dec.
- Deductibles have to be met individually per year (if you've already paid it this year and wait for treatment, it will be due again next year!)
- Preventive dentistry is usually covered at a higher percentage than more invasive treatments- making routine cleanings even more important to avoid costly procedures later. Remember: dentistry isn't expensive.. neglect is.
- Some treatment can be staged to start this year and carry over into your next benefit year, thus maximizing your benefits.

Congrats!
