INDICATION

BOTOX® Cosmetic is a prescription medicine that is injected into muscles and used to improve the look of moderate to severe frown lines between the eyebrows (glabella lines) in people 18 to 65 years of age for a short period of time (temporary).

IMPORTANT SAFETY INFORMATION

BOTOX® Cosmetic may cause serious side effects that can be life threatening. Call your doctor or get medical help right away if you have any of these problems any time (hours to weeks) after injection of BOTOX® Cosmetic:

- Problems swallowing, speaking, or breathing, due to weakening of associated muscles, can be severe and result in loss of life. You are at the highest risk if these problems are pre-existing before injection. Swallowing problems may last for several months.
- Severe local reactions at the injection site. The effect of Botox® Cosmetic may affect areas away from the injection site and cause serious conditions including: loss of strength and/or all-over muscle weakness, double vision, blurred vision and drooping eyelids, hoarseness or change in voice (dysphonia), trouble swallowing, trouble breathing, swallowing trouble. If this happens, do not drive a car or operate machinery, or do other dangerous activities.

The dose of BOTOX® Cosmetic is not the same as, or comparable to, another botulinum toxin product. There has not been a confirmed serious case of creative of repitum atten when BOTOX® Cosmetic has been used in the recommended dose to treat frown lines.

Serious and/or immediate allergic reactions have been reported. They include itching, rash, redness, hives, wheezing, asthma symptoms, or difficulty breathing. Tell your doctor or your medical help immediately if you are wheezing or have asthma symptoms, or if you become dizzy or faint.

Do not take BOTOX® Cosmetic if you are allergic to any of the ingredients in BOTOX® Cosmetic (see Medication Guide for ingredients): had an allergic reaction to any other botulinum toxin product such as Myobloc® (onabotulinumtoxinA), Dysport® (abobotulinumtoxinA), or Xeomin® (incobotulinumtoxinA); or Xeomin® (incobotulinumtoxinA).

Tell your doctor about all your muscle or nerve conditions, such as amyotrophic lateral sclerosis (ALS or Lou Gehrig's disease), myasthenia gravis, or Lambert-Eaton syndrome; as you may be at increased risk of serious side effects including severe dysphagia (difficulty swallowing) and respiratory compromise (difficulty breathing) from typical doses of BOTOX® Cosmetic.

Tell your doctor about all your medical conditions, including plans to have surgery; had surgery on your face; weakness or heaviness of facial muscles, such as trouble using your eyebrows, drooping eyelids; any other abnormal facial change, are pregnant or plan to become pregnant (it is not known if BOTOX® Cosmetic can harm your unborn baby); are breast-feeding or plan to breastfeed; and have lung disease (it is also known if BOTOX® Cosmetic passes into breast milk).

Tell your doctor about all the medicines you take, including prescription and nonprescription medicines, vitamins, and herbal products. Using BOTOX® Cosmetic with certain other medicines may cause serious side effects. Do not start any new medicines until you have told your doctor that you have received BOTOX® Cosmetic in the past.

Please see additional Important Safety Information about BOTOX® Cosmetic on reverse side.

INDICATION

JUVÉDERM™ Injectable gel is injected into areas of facial tissue where moderate to severe facial wrinkles and folds occur to temporarily add volume to the skin, which may give the appearance of a smoother surface.

IMPORTANT SAFETY INFORMATION

Most side effects are mild or moderate in nature, and their duration is short lasting (7 days or less). The most common side effects include, but are not limited to, temporary injection-site reactions such as: redness, pain/tenderness, firmness, swelling, lump/bump, bruising, discoloration, and discomfort. As with all skin-injection procedures, there is a risk of infection. To report a problem with JUVÉDERM™, please call Allergan Product Surveillance at 1-800-624-4261. For more information, please see the About Safety page at www.juvederm.com or call the Allergan Product Support Line at 1-800-423-8871. JUVÉDERM™ Injectable gel is available by prescription only.
