You have been scheduled for the Mohs procedure with Dr. Jacqueline Guidry, MD. Listed below, you can find a few things to expect at your procedure date on:

Monday Tuesday Wednesday Thursday Friday _____, 2023 at _____ am / pm

- 1.) Plan to be at our office from anywhere between 2-7 hours the day of the procedure
- 2.) There are no restrictions the day of your procedure, so continue to take your normal medications and don't skip breakfast
- 3.) You do not need a driver, but you're welcome to bring someone with you if you'd like
- 4.) You will want to take it easy for at least the first 48 hours after your procedure. Avoid heavy lifting and try to avoid getting your heart rate elevated
- 5.) You will have 2 sets of stitches, one underneath that will dissolve, and one on top that will need to be removed around 7-14 days. (Unless otherwise directed.)
- 6.) You will spend most of your time throughout the day waiting in your room. You are welcome to bring something to do while you wait, otherwise, we have Netflix and Samsung TV in all of the rooms

If you have any other questions about your upcoming procedure, please feel free to call us at 918-728-3100. We look forward to seeing you soon!
