# PRICELESS SMILE CARE STARTS HERE

You want a gorgeous smile and a dentist who cares enough to keep you smiling for life, while saving you a small fortune on your future dental work, that's what Floral Park Smiles is all about. We want to give you the best possible smile care and make your life a little easier – and less stressful – along the way. Just as we've done for thousands of Long Island families and individuals since 1985.

## WHAT A DIFFERENCE FLORAL PARK SMILES MAKES

At Floral Park Smiles, Michael D. Squire, DDS, has been at the forefront of advanced dental care and treatment for over 30 years. As a highly skilled dentist with additional prosthodontic training, Dr. Squire treats patients from 2 years old right through adulthood. He is well-known for his thorough, meticulous care and outstanding results, as well as his commitment to continuing education and staying up-to-date on the latest dental procedures and technology.

# TRUSTED BY THOUSANDS OF PATIENTS FOR MORE THAN THREE DECADES

Michael D. Squire, DDS, is a genuinely caring and compassionate dentist who offers a relaxed, welcoming atmosphere that will make you feel like you're home. He will get to know you personally and treat you like family, too. In addition to making your health and happiness his top priority, he provides conservative care that patients of all ages have trusted for more than three decades.

# PERSONALIZED, ONE-ON-ONE CARE AND COMPETITIVE PRICING

Our experienced, friendly staff is responsive to your needs. Together with Dr. Squire, we provide truly personalized, one-on-one care, and make dentistry comforting and fun so you always feel at ease. So if you're looking for great value – comprehensive, high-quality care plus spectacular smile results and a wonderful patient experience at competitive pricing – look to Floral Park Smiles.

# THE MANY WAYS TO A MORE ATTRACTIVE SMILE

At Floral Park Smiles, you'll find many ways to achieve a spectacular smile.

- Invisalign<sup>®</sup>, Invisalign Teen<sup>®</sup> and AcceleDent<sup>®</sup>
- Preventive dentistry
- Porcelain veneers
- Bonding/tooth-colored fillings
- Dental implants
- Full mouth restorations
- Hygiene/periodontal health
- PerioProtect<sup>®</sup> system
- Cosmetic dentistry
- Teeth whitening
- Bridges and crowns
- Dentures/partial dentures
- Root canal therapy
- Extractions

## DR. SQUIRE IS ALSO A TRAINED PROSTHODONTIST

As a prosthodontist, Dr. Squire specializes in state-of-the-art techniques and procedures required for patients who need complex treatment to restore optimum oral function and esthetics. His prosthodontic training ensures that dental implants are placed correctly and that your restorations not only look great but will last a lifetime. He also teaches implant dentistry at Flushing Hospital, in Queens.

## PREVENTIVE DENTISTRY

The PerioProtect method is a comprehensive treatment approach to oral health that incorporates a range of dental therapies with patient homecare. Dr. Squire prescribes a custom made Perio Tray with a special sealing system to deliver medication into the gingival crevices or periodontal pockets (the spaces that can develop between teeth and gums). The most important advantage of the Perio Protect approach is that it can treat the bacteria causing disease in a comfortable way, minimizing surgery and antibiotics.

## RESTORE YOUR SMILE WITH DENTAL CROWNS AND BRIDGES

Over time, our teeth can weaken and become more susceptible to decay, cracks, discoloration and chipping. If your tooth is too damaged or decayed for a filling, a crown may be necessary to cover, strengthen and protect the tooth.

Dental bridges are a great way to replace missing teeth. Dr. Squire uses your existing teeth to literally create a bridge across the area where your tooth is missing.

# INVISALIGN: STRAIGHT TEETH WITHOUT BRACES

How would you like to straighten your teeth, correct an overbite or underbite and fix teeth alignment issues without resorting to metal braces? The Invisalign system of clear aligners is removable and discreet. It offers the same benefits as traditional braces while being virtually undetectable by others. Which makes it perfect for adults of all ages and teens.

Dr. Squire also offers AcceleDent which can complete your orthodontic treatment up to 50% faster.

## A PRICELESS SMILE IS MORE AFFORDABLE THAN YOU THINK

Thanks to recent advances and new treatment options in cosmetic dentistry, you can have a gorgeous smile without spending a small fortune. Today's cosmetic bonding, professional-strength whitening, tooth-colored fillings and precision-crafted porcelain veneers can transform your smile, even on a budget.

## DENTAL IMPLANTS – LIKE YOUR OWN TEETH, ONLY BETTER

When planned and placed correctly, today's dental implants may actually perform better than your own natural teeth. Dr. Squire always plans the final restoration prior to the implant placement. His method ensures that the end result – your smile – is the best it can be.

## FULL MOUTH RESTORATIONS WITHOUT REMOVABLE DENTURES

If you have been told that you don't have enough bone to support dental implants without time-consuming bone grafts and sinus lifts, or that you have to wear dentures for the rest of your life, we have great news for you. With the new Nobel All-on-4<sup>®</sup> technique, there's no sinus lift and bone graft needed. The technique was developed for patients who don't have significant bone. All-on-4 was created to be less invasive, while requiring less treatment time and less money.
