

## ***Parents and Families***

We would like to assure you all that we are taking the situation concerning the Covid 19 (coronavirus) infection very seriously. The health of our children and our community is our primary goal.

In order to minimize the risk to our patients and their families we are starting the following precautions:

1. Walk In Clinic is **SUSPENDED** until further notice.
2. We are asking that people coming into the office are limited to the parent/caregiver and the **PATIENT BEING SEEN**.
3. We are asking that persons aged 60 and older try **NOT** to come into the office absolutely necessary.

### **IMPORTANT!!!**

If your child has a fever and cough but **NOT ILL APPEARING**, it's best to try and avoid the office. If you feel your child needs medical attention, please call the office and be prepared to answer questions about your travel out of the state or exposure to persons who have been in areas of illness; the child's specific symptoms; a **TEMPERATURE** taken by a thermometer, **NOT** feeling or looking hot; duration of symptoms. **AFTER** these screening questions, it will be decided how to best serve your child's medical needs.

***THANK YOU FOR YOUR COOPERATION*** during this intense and frustrating time.
