Dear Dr. Murphy and all -

I just want to thank you again for the wonderful gift basket. I have been enjoying it and sharing it with my family. But I should be sending you all the gifts! With all that has been happening in my life this past year, your work to restore my smile has been the silver lining behind an enormous cloud. I can't tell you ~~how~~ much it means to me to smile again with confidence! The kindness and personal attention from everyone there often made me feel as if I was the most important patient! Thank you - so much,
Sally Biser
