

Dr. Rene Leon has been in practice at Texas Regional Asthma & Allergy (TRAAC) since 1995 and has accumulated years of clinical experience in all aspects of the allergy and immune system disease spectrum. He was born in Chicago and later moved to Texas to complete Internal Medical Residency training at UT San Antonio in 1993 and further specialized in Allergy/Immunology at the highly coveted UT Southwestern (UTSW) Medical Center fellowship program in Dallas from 1993-1995. There, he excelled and worked with national leaders of this medical field, all while juggling family life with his lovely wife and their first child. He brought his expertise to TRAAC, but maintained an Associate Professor role at UTSW for years. Dr. Leon specializes in all aspects of Allergy and Immunology and sees adults and children aged 5 and older. His clinical expertise includes rapid desensitization for pollen/environmental allergies, chronic sinus disease, asthma, nasal polyp disorders, venom/insect and drug allergies and desensitization, urticaria/angioedema, anaphylaxis, food allergies, and allergic skin diseases. He is a leader in disorders of the immune system, with a wide spectrum that includes immune deficiency and immune replacement therapies and mastocytosis. He works tirelessly to diagnose the most difficult of diseases and provide the best clinical decision making so patients achieve the best outcomes for a healthy life. During his spare time, he enjoys traveling and exploring new destinations and culinary delights with his loving wife and they are blessed with 2 married children who also live in the DFW area and spend generous of amounts of time spoiling their young grandson.
