GDMD

Greater Des Moines Dermatology

Timothy Abrahamson MD 08 2021

Jacob Lorsung PA-C

TruSculpt ID® !!! This can KILL FAT and TIGHTEN SKIN from the neck, trunk, arms, legs, abdomen, and back! NO SUCTION AND NO DOWNTIME!!!

The demand for non-invasive aesthetic treatments has increased dramatically. We want therapy that delivers excellent clinical results that are comfortable, safe, fast and without downtime. **TruSculpt ID® effectively kills fat/adipose, tightens skin, and reduces cellulite!**

Fast: 15 minute session. No needles. No surgery. No downtime. No suction. Safe, clinically proven, and effective. Latest technology using monopolar RF technology to kill fat through heat. >We also have the **TruSculpt FLEX®** if you want stronger muscles, more definition, and accentuation of areas that exercise alone is missing. **TruSculpt FLEX** can also be done with the **TruSculpt ID®** to get rid of fat and also build muscle mass and definition. We also have the **Venus Legacy®** that is more for skin tightening and Cellulite reduction.

The **TruSculpt ID®** takes only **15 minutes** to treat with **6 pads** and results of maximal fat destruction are at **3 months after a SINGLE SESSION!** It **tightens skin and kills fat.** As no suction is required, pockets of fat can also be addressed such as bra fat.

-The **TruSculpt ID®** is a unique hot treatment that targets and **KILLS fat/adipose, reduce cellulite, and tightens loose skin.** **TruSculpt ID® is the answer if you want to kill resistant fat areas that diet and exercise have failed and also tighten the skin.** Over a 20% reduction in the fat layer is expected in **ONE** session! Patients can just relax during the treatment feeling only of a hot stone massage.

There will be mild tenderness to the site for up to 48 hours after therapy. Applying Cetaphil®, Cerave®, or Aveno® cream to any treatment area will soothe site after a session. Redness dissipates in 4 hours.

>If you know that you are a sensitive patient; **GDMD recommends topical pain control:**
RX: Lidocaine 4% otc/4ounces or
RX: Lidocaine 5%/50gm or
RX: EMLA 30gm starting 40 minutes before tx, reapplying every 10 minutes.
****all on www.goodrx.com****

-**TruSculpt ID®** is faster, less painful, delivers more tightening, and better cellulite reduction than other comparable treatments such as “coolsculpting®” and “sculpsure®”. Six Pads can be used in 15 minutes! Two TruSculpt ID® pads cover more area than a single

large “coolsculpting®” pad and do not cause bruising, do not need suction, and do not cause painful cold nodules and not limited by BMI. The delayed pain, tingling, paradoxical fat hyperplasia, and paresthesia of “coolsculpting®” do not occur with TruSculpt ID ®.

www.realself.com/trusculpt-id

-Greater Des Moines Dermatology and Dr. Abrahamson now offer this cutting edge technology without downtime! You can treat 6 areas/pads in 15 minutes!! No other device works as fast or has better results. Imagine better results, less complications, and faster treatment times along with skin tightening!

-Can you treat more than 6 areas at a visit? **YES!** Just 15 more minutes to treat 6 more zones/pads!

-TRUSCULPT ID can treat pockets of fat as no suction needed!

+++>There is a \$25 fee to shave hairy areas: please shave planned treatment areas at home and the upper back for grounding pads!!!!**<<+This will speed getting you in and out of clinic quickly!**

\$75 consult fee will be applied toward treatment if using 6 pads in one session.
