

Dear Dr. Patel & Staff,

Thank-you, Thank-you, Thank-you,
Thank-you and many more. I have
been going to dentists (or rather
avoiding them) for the past 35 years.
Until this month, I had never had a
positive experience. Oh sure, the job
got done, but not without a lot of
pain, tears & anxiety. The anxiety
continued to build on itself with each
bad experience, until I became an
utter mess at the sheer thought of
going to the dentist. You & your staff took
the time to get to know me & properly evaluate
my situation. The exact right amount of
medication, support & information had me
actually enjoying my root canal?!?
The best part is, I was able to drive
myself to work after the procedure so
my missed time out of work was minimized.
You are all a true blessing!

With a warm heart & a
beautiful smile - Karen Sherwood
