Many of our parents have asked for recommendations for mental health therapists. The following is a list of some of the therapists to whom we have referred to in the past. All of the mental health specialists below are comfortable with children and adolescents. Check with your health insurance carrier to determine if the therapists below are a part of your plan. If not, it is recommended that you select a mental health provider on your insurance plan who is a child/adolescent therapist.

- ***Dr. Robert Benedek, Ph.D. (410) 602-3805; 15 Walker Ave., Pikesville, MD**
