

REOPENING JOSHI DENTAL IN RESPONSE TO COVID-19

We hope this letter finds you and your family in good health. Our communities have been through a lot over the last few months, and all of us are looking forward to resuming our normal habits and routines. While many things have changed, one thing has remained the same: our office's commitment to your safety.

Infection control has always been a top priority at Joshi Dental. We have always met or exceeded recommendations and guidelines made by the American Dental Association (ADA), the Centers for Disease Control and Prevention (CDC), and the Occupational Safety and Health Administration (OSHA). This allows us to make sure that our infection control procedures are up-to-date and enables us to provide the safest environment for our patients and their family members. We ask that you please be patient and understand that we will do our best to accommodate your scheduling needs as we know many of you are anxious to get back into our office.

During this time, we have implemented additional safety precautions to help protect our patients and staff.

- Upon scheduling an appointment, a COVID-19 questionnaire will be emailed to you. Please complete this questionnaire before you arrive at the office. The questionnaire is also available for download on our website as "[COVID-19 Patient Screening and Consent Form](#)".
- We will postpone treatment for any patient who has experienced or been in contact with someone who has experienced the following symptoms within 14 days of the scheduled appointment date:
 - fever, cough, loss of taste and/or smell, flu-like symptoms
 - difficulty breathing or shortness of breath, and fatigue.
- As recommended by CDC, if you have pre-existing health conditions such as diabetes, chronic lung disease or asthma, serious heart conditions, are immunocompromised, or chronic kidney or liver disease, we recommend you do not visit the office at this time except in case of a dental emergency. If you fall into this category but need to accompany a child or family member for a visit, please call our office as we will handle this request on a case-by-case basis.
- We will be scheduling appointments in a manner that promotes social distancing and allows for adequate time for us to disinfect all areas of use in between patient appointments.
- Upon arrival at our office, call us before entering the office to let us know you have arrived. We will call you once the office is ready for you to enter. We ask that patients enter the office unaccompanied, if possible. For those patients who need a guardian to accompany them, we ask that this be limited to a single family member.
- Every person entering the office is expected to wear a face covering and will be asked to sanitize their hands immediately upon entry.
- Please take your temperature the morning of your appointment. We will confirm no fever with a contactless thermometer upon your arrival.
- Our waiting room will no longer offer magazines, charging stations, children's toys, and so forth, since these items are difficult to clean and disinfect.
- Clear plastic screens (sneeze guards) have been installed at the front desk to minimize exposure to airborne pathogens.
- Medical-grade high efficiency HEPA air purifiers have been installed in the office to help improve the air quality in the area for all patients, family members, and staff.
- Dr. Joshi and all our staff will be wearing all of the recommended personal protective equipment (PPE).

Thank you for being part of Joshi Dental. We value your trust and loyalty and look forward to welcoming back our patients, neighbors, and friends.
