## **Dr. Arp Attends Midwest Podiatry Conference**

MOUNTAIN HOME, Ark. – Eric A. Arp, D.P.M., recently attended the 2016 Midwest Podiatry Conference in Chicago, Illinois. The conference theme for 2016 was *Adapt. Evolve. Change.* Featuring leading speakers from the United States and Canada, the Midwest Conference is one of the largest podiatric conferences of the year. The conference is coordinated by 14 individual state podiatric medical associations.

Over 2,000 podiatrists from 43 states were in attendance to discuss the best practices in administering healthcare, as well as the most current research and innovations in podiatric medicine and surgery. Highlights of the program included *Advancements in the Treatment of Plantar Fasciitis, Flatfoot Reconstruction, and Managing Foot and Ankle Fractures.*

“To gather together with some of the most advanced thinkers in current foot and ankle treatment modalities is both enlightening and invigorating,” said Dr. Arp. “I am pleased to be part of a field of medicine that is continually evolving to provide better care for our community.”
