

Premier Pink Salt

\$11

- Raw, unprocessed sea salt from unpolluted sea beds. Unlike white salts, never heated or bleached.
- Mineral salt to maintain electrolyte balance in your body.
- Rich trace mineral content gives to color. Unlike refined salts and white sea salts missing trace minerals.
- No "flow" or "anti-clump" additives or other toxic additives.
- Premier Pink Salt is ground using **NICKEL FREE** grinders. Ensuring that no toxic tag-alongs will be present in any Premier Research Lab products.

NO Processing NO Excipients!!!

Directions for drinking with water...

Drink ½ your weight in oz of water every day. Add 4oz of water for every 1oz of caffeine you drink. The only safe water is thru a reverse osmosis water filter or spring water. If you use a reverse osmosis water filter you must use a teaspoon of salt.
