Company Overview

Innovative Networking Technology (INT) is an 8(a), 8(a) Stars III, and Economically Disadvantaged Woman-Owned certified contractor dedicated to assisting clients to develop and implement cost-effective information management and information technology solutions. For the past 25 years, our multi-disciplined Subject Matter Experts (SMEs) have used INT's Service Optimization Pod Methodology (SOPM) to deliver cybersecurity, management consulting, systems engineering & architecture services, cloud/mobile optimization strategy, and healthcare IT services to our clients.

INT operates with full trust, respect, and collaboration with our clients. INT hires and retains talented individuals and aids in our staff's continual skillset growth by achieving and maintaining the latest IT and Security certifications. We empower our experienced Project Managers to achieve results-driven business objectives, streamline cybersecurity continuous monitoring efforts and transform IT solutions. INT practices thoughtful innovation by applying cutting-edge technology at the right pace. We offer advice at the right time and transformation in the right dosage.
