

Cancers Answer — Tried and True

We are a premier supplier of nutritional supplements to men and women suffering with genital urinary issues. All of our supplements are clinically proven to be effective. These products have been sold for over 20 years and have been proven to be effective.

PRODUCTS:

1. PEENUTS (Patented in 2004 by Dr. Ronald E. Wheeler, M.D.) - While it is uncommon for nutrition formulas to be "patented", the clinical efficacy of this formula for inflammatory disease of the Prostate has proven to be significant.

PEENUTS is an Anti-inflammatory formula, documented to be clinically effective and indicated in men with inflammation of the Prostate (non-bacterial Prostatitis). It is an Anti-inflammation made up of 15 Vitamins, Minerals, Herbs and Amino acids. Clinically Proven to Decrease the White Blood Cell in the EPS (Express Prostatic Secretion), decreased voiding symptoms associated with the IPSS (International Prostate Symptom Score), and decrease the PSA (prostate special antigen).

AACR (American Association of Cancer Research) — Prostatitis evolves into Prostate Cancer, the #1 disease men acquire in their lifetime.

Target Audience: Men 30 and above with a family history of Prostate Disease (including Prostate Cancer), a PSA value of > 0.05 ng/ml, Sons of Survivors (SOS), men with a history of prostatitis. Most commonly a non-bacterial disease in greater than 95% of all cases. Recommended dosage is 2-3 capsules per day.

2. Bladder Balance — Developed in 2006; Anti-inflammatory indicated for women (all ages) with Inflammation is symptom of urgency and frequency of urination. Recommended dosage is 2 capsules a day.
3. UroStarTM— An Anti-Oxidant formula indicated for men and women who have a least one previous cancer; the chance for a secondary cancer in men and women is approximately 10%. Science: Anti-Oxidants fight oxidation, a process that has been found to aid and abet the growth of Cancer(s).
Recommended dosage is 2 capsules twice per day with food whenever possible.
4. GOG with CurcuminTM An anti-arthritis for adults of all ages.
Recommended dosage is 2 capsules daily with good. (Generally best following a meal)
