HIPAA PRIVACY COMPLIANCE FOR THE HEALTH CARE PROVIDER

A NEW LAW HAS TAKEN EFFECT REGARDING GUIDELINES FOR THE PROTECTION OF YOUR PRIVACY:

To summarize:

Although the doctors and office staff at times have access to personal health information, we will at all times protect that information, and at no time will we discuss this information with other staff members, family members, or other people, either in or out of the office. We will adhere to strict office policies to protect your private health information.

These guidelines have always been followed in our practice, but this law requires that we inform you of the steps taken by our staff to protect the privacy of your records.

Please read the following notice and sign below for each child.

I acknowledge receipt of a copy of Larchmont Pediatrics' Notice of Privacy Practices.
